### **Learning Resources**

All the classrooms and seminar halls are ICT enable equipped with Projector and screen. Faculty members are engaged in online teaching by the teachers using various tools e.g. Webex, google meet etc since March 2020. Apart from this faculty Members use google classrooms also for taking exams and uploading assignments. Teachers and Student are provided with Wi-Fi login and password to access internet facility for smooth conduction of online teaching. Department is equipped with Computer lab with around 10 computer systems with internet connection for student's use. Students have the access to search online books provided by University library. Various teaching and learning resources such as NPTEL, e-pathshala, edx etc are used by faculty to make online teaching more effective with innovation. Postgraduate students present Journal club and Seminars using Google meet and Webexplatforms. They routinely search online journals provided by University library for their research work. Research scholars have access to check plagiarism when they carry out some research work using urkund software.
